## Value proposition

**Companies:** Provide and collect ESG data in a standardised format, and share the benefits and

costs of this data exchange platform among users in a non-profit model.

**Suppliers:** Provide customers with relevant ESG data on a peer-to-peer basis, thus

gaining competitive advantages.

**Investors:** Obtain standardised ESG data transparency on investments directly from companies.

**Banks:** Securely request ESG data on your loan book using common taxonomy standards. **Solution Partners:** Visma Connect's data exchange solutions use battle-proven technology, running

billions of data transactions annually, and have never lost a single message since

its inception over 15 years ago.

## **ESG Clearing House**

A common solution for exchanging all standardized sustainability metrics

Participant fees will decline as more participants join and use the ESG Clearing House.

The ESG Clearing House's non-profit foundation has the policy to hold a maximum of 150% of the annual operating costs as reserves. Product development, participant growth and lowering fees are its priorities.
